

JUN-AIR[®] Dental Vacuum Suction System

Key Features

Full regulatory compliance

- UL, CSA, and NFPA approved
- Medical-grade recognized component

Physical footprint

- 64" H x 24" diameter

Electrical

- 230 VAC/60 Hz single phase

Long life

- Proven Gast blower technology
- 10,000+ hour system life (5+ years usage)
- Minimal preventive maintenance

Superior performance

- 8 gallon separation tank capacity
- 3, 5 & 7 user operator models available (JVac3, JVac5 & JVac7)
- 4 °C to 40 °C ambient temperature range and 0 % to 90 % non-condensing RH% range
- 7.25 (JVac3), 9.0 (JVac5) & 10.0 (JVac7) in Hg vacuum capability
- Oil & water free pump operation – no additional water lines required for installation

Pneumatic Performance

	JVac3	JVac5	JVac7
Max flow (CFM)	63	100	105
Flow at 6 In Hg (CFM)	19	44	49
Vacuum relief valve setting (in Hg)	7.25	9	10
